I'M PRESENTING

**Taming the Tune:
Making English
Intonation Achievable**

English intonation often challenges even advanced learners, but it doesn't have to remain a mystery.

This session explores practical, engaging strategies - blending drama-based techniques with AI-powered speech tools and mobile apps - to make intonation more accessible and intuitive. Participants will discover how to help learners internalize rhythm, stress, and pitch patterns through interactive activities and real-time feedback. Learn how technology can support pronunciation, boost confidence, and bring natural expression into the language classroom.
